Happy  
New  
Year!

A large, stylized, white and red "Happy New Year!" text is centered in the foreground. The background is a dark blue night sky filled with numerous small, glowing yellow stars. In the upper center, there are several larger, colorful fireworks exploding in shades of pink, yellow, and orange, creating a festive atmosphere.

## DECEMBER IS A LEADING MONTH FOR U.S. HOME FIRES

From Security System News

SSN Staff  
Updated 2:47 AM CST, Fri December 5, 2025

QUINCY, Mass. — Be extra vigilant this holiday season, December is a leading month for U.S. home fires according to the National Fire Protection Association (NFPA).

"Many of the activities we engage in during the holiday season reflect leading causes of home fires, which explains why we consistently see the number of home fires climb at this time of year," said Lorraine Carli, vice president of Outreach and Advocacy at NFPA.

While cooking significantly contributes to the increased risk of home fires during the holiday season, other contributing factors include Christmas trees in the home, the use of holiday decorations, particularly those involving candles or electrical lighting, and the use of heating equipment.

NFPA's latest statistics (annual averages between 2020 and 2024) underscore the factors that collectively contribute to the December spike in home fires:

- Cooking is a leading cause of reported U.S. home fires, home fire injuries, and deaths. An estimated 48 percent of home structure fires, 35 percent of home fire injuries, and 16 percent of home fire deaths involved kitchen and cooking equipment.
- Heating equipment is another leading cause of U.S. home fires with nearly half (46 percent) of all home heating fires occurring from December through February.
- Holiday Decorations caused fire departments to respond to an estimated 835 home structure fires, resulting in three civilian fire deaths, 29 civilian fire injuries and \$18 million in direct property damage.
- Christmas tree, fires don't happen very often, but when they do, they tend to be more serious. U.S. fire departments responded to an average of 143 home fires that started with Christmas trees, resulting in an estimated seven civilian deaths, 13 civilian injuries, and \$15 million in property damage.

"Understanding where potential threats exist and taking the steps needed to prevent them can go a long way toward ensuring a festive, fire-safe holiday season," said Carli.

NFPA offers a wealth of information and resources to help minimize the likelihood of cooking, heating, candle, Christmas tree, and decoration fires. Learn more at [nfp.org/winterholidaysafety](http://nfp.org/winterholidaysafety).

## Camp Susquehanna: Where Young Burn Survivors Build Community and Confidence

A serious burn injury is one of the most painful traumas a human being—especially a child—can endure. Most severely burned children are put into a medically induced coma for the first several months of their recovery because they might not otherwise survive the pain of their initial healing process. Recovery often takes years or even a lifetime of difficult treatments.

Emotional suffering and social isolation compound these physical healing challenges. Maimed and facially disfigured survivors tend to be stigmatized whatever their age, and children especially face ostracism and bullying.

For kids in this situation, nothing is more healing than just “being a kid” with other children and adults who truly understand and are able to help. That’s why Camp Susquehanna exists.

### What is Camp Susquehanna?

Camp Susquehanna is a sleepaway summer camp experience for children ages 7-17 who have had a burn injury. It creates potentially life-changing opportunities for children to have fun, connect with peers who are also burn survivors, and learn invaluable life skills in a safe, supportive environment.

Camp Susquehanna is the charity of choice for PAFED. It is a program of the Burn Prevention Network, a Pennsylvania statewide 501(c)(3) non-profit with the mission of reducing the risk of burns and empowering burn survivors and their families. Thanks to the support of many generous donors including PAFED, Camp Susquehanna is completely free to campers and their families. Participants can also take advantage of free roundtrip bus transportation from several different burn centers and other locations across Pennsylvania, including Pittsburgh, Philadelphia, Lewistown, and Lehigh Valley.

Camp Susquehanna participants vary widely in age and abilities, so activities are tailored towards each camper’s unique developmental needs. Kids can choose to participate in an impressive range of activities, including a climbing

wall, ropes course, towed tubing, swimming, fishing, campfires, music, skits, arts and crafts, and much more.

We are celebrating Camp Susquehanna’s 30<sup>th</sup> year. It is currently being held at beautiful Camp Westmont in Poynette, PA. Bracketed by scenic woodlands and a lake, indoor amenities include excellent dining facilities and air-conditioned cabins. Yes, the fun here is first-class.

### Supporting Camp Susquehanna

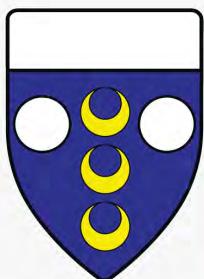

There are many ways for individuals, businesses, and groups to support Camp Susquehanna. One is supporting PAFED’s fundraising events. The camp is completely free for all who attend, and there is room at the current facility for many more campers if funding permits.

Other possibilities include:

- Acting as a chaperone on a bus bringing kids to or from camp.
- Helping to inventory, pack, label, and move camp supplies.
- Provide a lunch stop along one of the bus routes to or from camp. The kids love to stop at a fire hall and meet firefighters!
- Making possible online/virtual activities, such as regular Zoom calls with the children and their families.
- Helping to spread the word about Camp Susquehanna within your own community.

Camp applications are currently open! This year’s dates are June 14-18<sup>th</sup>. For more information about Camp Susquehanna, including this year’s volunteer application and donation links, please visit <https://www.burnprevention.org/camp-Susquehanna/>.

# VOLUNTEER FOR CAMP SUSQUEHANNA

## Camp for Young Burn Survivors

### A LIFE CHANGING EXPERIENCE

Camp Susquehanna is sleep away camp for children with burn injuries. Volunteers make one-on-one connections, learn and have new experiences, while enjoying the great outdoors in the beautiful Pocono Mountains.

**Each year, the Burn Prevention Network welcomes 100+ volunteers to make Camp Susquehanna a success!**

On-site volunteer opportunities for in-person camp include counselors, fun squad, psychosocial team, photographers, nurses and more! If you cannot commit to the entire time at camp, we have other opportunities as well!

- Chaperon on the buses that bring campers to and from camp
- Packers who label, organize, inventory, and move camp supplies
- Fundraisers! Hold a raffle, a fundraising event, or recruit donors
- Assist with virtual events throughout the year (Soliciting donations, packing materials, etc.)
- Help with a lunch stop along the bus routes for the campers

### VOLUNTEER REQUIREMENTS:

- Have experience working with children
- Complete the application
- Be at least 21 years of age
- Complete a phone interview
- Attend all days of camp
- Must have Criminal and Child Abuse check completed and mailed prior to attending camp. Anyone who has not lived in the state of PA for the last ten consecutive years must also complete an FBI fingerprint check. Clearances are valid for 60 months from date of issue.
- Burn survivors ages 18-20 may apply to the Leaders-In-Training Program

**Camp Susquehanna  
is completely free of  
charge to our campers  
and families.**

### WHAT VOLUNTEERS SAY:

*“Camp Susquehanna is a life changing experience. Once you attend, you will never be the same.”*  
*“Camp is just what I need to recharge my batteries for the rest of the year.”*  
*“I feel as though I get just as much from camp as the campers do. It feels like family here.”*

### REGISTRATION

LEARNING CENTER

**VIRTUAL: LIVE INSTRUCTION**

## Portable Fire Extinguishers Training (Virtual Instructor Led)

Dates:

01.07.26 at 8am EST

This Fire Extinguishers Course is designed to provide attendees an overview of how Fire Extinguishers became important, product information, information on standards, codes and the enforcement of them, selection and installation, calculating extinguisher coverage, recharging and hydrostatic testing.

Hands On Training is also available at various locations throughout the year.

Visit [fedlearningcenter.com](http://fedlearningcenter.com) for more information and to register.

### Description

Segment 1: Learn the basic principles of Fire Extinguishers, the fundamentals of fire, fire extinguisher basics, using fire extinguishers, standards, codes, enforcement, product testing, ratings, labeling, and the general effectiveness of fire extinguishers.

ICC # 24691, CEUs: 0.15, Contact hours: 1.5

Segment 2: A general overview regarding the installation, inspection, and maintenance requirements of Portable Fire Extinguishers.

ICC # 24924, CEUs: 0.2, Contact hours: 2

Segment 3: A deeper dive into understanding Fire Extinguishers including how to determine the number of extinguishers installed based on occupancy hazard by explaining the proper selection and calculation process.

ICC # 24925, CEUs: 0.2, Contact hours: 2

After successful completion of all segments and materials, you will receive a Certificate of Completion for this course.

Some of the course content that will be covered during the course is below:

- Types & History of Fire Extinguishers
- Basics of Using a Fire Extinguisher & Effectiveness
- Standards, Codes and Enforcement
- AHJs and their role
- Product Testing, Ratings & Labeling
- Components of Portable Fire Extinguisher
- Installation of Extinguishers
- Inspection and Maintenance Requirements
- Maintenance Checklist
- Instructor Demonstration: Inspection of Out-of-Service Extinguisher
- Review of Obsolete Fire Extinguishers
- Non-Compliant Examples
- 6-Year Maintenance
- Recharging
- Hydrostatic Pressure Testing
- DOT and Non-DOT Cylinders
- Condemning Fire Extinguishers
- Types of Occupancy Hazards
- Selection of Fire Extinguishers
- Calculating Fire Extinguisher Coverage
